

Does Someone You Care About Suffer from Dementia of Alzheimer's Type?

Individuals may qualify if they:

- Have dementia due to Alzheimer's Disease
- Are over 55 years old
- Are treated currently only by Aricept
- Are in Relatively good health
- Live at home and have a reliable caregiver

THE NEUROLOGICAL INSTITUTE, PA is conducting a clinical research study to determine the safety of an investigational drug and its ability to increase cognitive performance. Qualified participants receive study-related doctors care, lab tests, and study medication. There is no cost & no need for insurance. There is compensation for time & travel.

For more information, call (704) 331-7856
