

# Do You Suffer From Menstrual Migraines?

*The Neurological Institute* is looking for non-smoking female volunteers, between the ages of 18 and 34, who have migraine headaches related to their menstrual cycle.

If you:

Have regular menstrual cycles

Have experienced migraines just before or during most of your menstrual cycles in the last six months

Are not currently taking any hormonal contraceptives or are willing to come off of your current hormonal contraceptives

You may be eligible to participate in a clinical research trial to evaluate an investigational drug for the management of menstrually-related migraines. Compensation for your time and travel may be available if you qualify.
